

Announcing EKU's Online Bachelor's Degree in Occupational Safety

Secure Your Safety Career with an Education from EKU

More and more employers are requiring a bachelor's degree in the safety industry to secure promotions and pay raises. Additionally, the diverse responsibilities of a safety professional are becoming more and more demanding. Ensure that you can stay competitive and gain confidence in your career path in the safety industry by earning a bachelor's degree 100% online in Occupational Safety with EKU.

Continue as a Working Professional

There's no need to put your career on hold to earn your bachelor's degree. In fact, you'll immediately be able to apply class lessons to real-world scenarios, through class discussions and by learning from faculty with years of safety experience. Courses stay relevant and up-to-date with breaking news events via discussion board questions and updated weekly assignments, so you'll be learning about the latest trends in the safety industry.

Attend a University with a Reputation for Safety

EKU's College of Justice and Safety is renowned for its experienced faculty and its online master's in safety, security and emergency management, as well as the esteemed EKU OSHA Training Institute on-campus. These strengths set the stage for a rich learning environment, and students in the EKU bachelor's degree programs learn about every aspect of a career in safety, from OSHA inspections, and training, to workers compensation and auditing. Graduates are prepared to work in a variety of settings, from the insurance industry, to the private sector, to a variety of organizations in public institutions. Additionally, this degree program includes a minor in Fire and Safety Engineering Technology to ensure that graduates are more valuable candidates to employers.
